2015 Active Targets and TPC for Nuclear Physics Experiments Workshop

Monday 18 May 2015

Session 4 - Lecture Hall (16:25-18:55)

Contributed Talks

time	title	presenter
16:25	Active Target and Time Projection Chamber (ACTAR TPC)	PANCIN, julien
16:50	Measurement of the isoscalar monopole response in the neutron-rich ^{68}Ni using Active Target MAYA	VANDEBROUCK, Marine
17:15	Conceptual design and simulation of a Proton Detector for studying low-energy resonances relevant in thermonuclear reactions	PEREZ LOUREIRO, David
17:40	Toward Nuclear Astrophysics studies with Electronic TPC (eTPC) and gamma beams from ELI-NP	CWIOK, Mikolaj
18:05	Nuclear Astrophysics With an Optical Readout TPC (O-TPC) at the HIγS Facility *	GAI, Moshe
18:30	Exotic decay modes studied by means of the Warsaw Optical Time Projection Chamber	JANAS, Zenon
